From Nurse Johnson: November is American Diabetes Month

- 30 million children and adults in the US have Diabetes.
- There is no cure for Diabetes.
- More than 750,000 children and adults in Indiana suffer from all forms of diabetes.
- Today, it is estimated that 1 in 3 children born after the year 2000 in the U.S. will develop diabetes.
- Together we can transform the lives of all people with diabetes by working to find a cure, improving access to health care and protecting the rights of people with diabetes
